- SD 38 Richmond
- SD 39 Vancouver
- SD 44 North Vancouver
- SD 45 West Vancouver
- SD 46 Sunshine Coast
- SD 47 Powell River
- SD 48 Sea to Sky
- SD 49 Central Coast
- SD 93 Conseil scolaire francophone

COVID-19 UPDATE

It is very concerning to see that COVID-19 outbreaks are now happening in B.C. schools.

It's not unexpected because the virus is still in our communities, and that makes our schools vulnerable as well.

Every health region in B.C. provides information online about COVID-19 exposures and the protocols they follow when reporting them.

In all cases, public health will investigate, interview, and conduct contact tracing. If anyone has been identified as a COVID-19 case or close contact, public health will contact them directly to provide further instruction. Dr. Bonnie Henry advised that if a person has not been contacted by public health, they should continue to monitor themselves and go to school as they normally would.

Let's all continue to follow the guidance of the PHO: practice physical distancing, wash your hands frequently, wear a mask when indoors if you cannot maintain physical distancing, and stay home if you don't feel well.

In solidarity and safety,

Warren Williams
